- Load-balancing
- Intelligent Least-cost Routing
- Advanced administration and management tools
- Compatible to Microsoft Clustering environment

Captaris® RightFax® Solutions for SAP Applications

Reduce Costs and Improve Efficiency by Automating Document Delivery from SAP

SAP efficiently manages business processes such as procurement, financials, supply chain, manufacturing, human resources and marketing. All these business areas generate volumes of documents—purchase orders, invoices and order acknowledgements to name a few. To fully capitalize on business opportunities, these documents must be delivered quickly and reliably to customers, trading partners and suppliers. Market-leading RightFax solutions address this challenge, turning how you deliver documents into a strategic advantage.

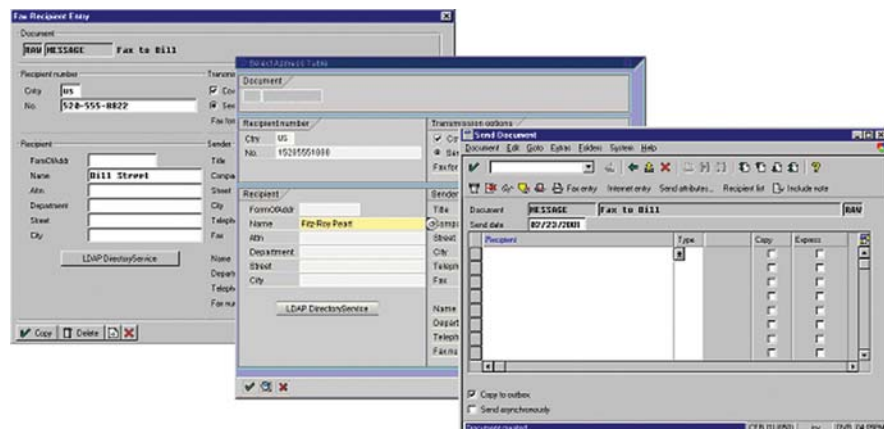

Tested and certified by SAP, RightFax provides a reliable, secure way to automate the exchange of business-critical information from SAP applications. RightFax augments SAP with integrated production fax and electronic document delivery capabilities that enable companies to reduce costs and optimize business performance by efficiently distributing information to customers, suppliers and trading partners.

AUTOMATED, LOW-COST, TIMELY DISTRIBUTION OF DOCUMENTS GENERATED FROM SAP

RightFax provides robust, flexible production fax and electronic document delivery solutions that integrate with SAP applications to deliver business information via fax, email, certified email or encrypted PDF. The advantages include:

- **Quick ROI** Reduce document delivery costs up to 90 percent by eliminating the preprinted forms, postage, labor and equipment costs associated with manual document delivery processing; In fact, RightFax typically pays for itself within a few short months.
- **Accelerated business cycles** Enable quick action on information by providing real-time document delivery, improving response times and accelerating revenue generation
- **Improved efficiency and streamlined business processes** Extend your existing SAP environment with production fax and electronic document delivery capabilities and eliminate error prone, time-consuming, repetitive manual routines that poorly allocate system resources
- **Secure document delivery** Ensure important communications reach their intended recipient with notifications as well as with authenticated and certified delivery
- **Reduced installation time and cost** Set-up and configure your RightFax solution via SAPconnect, SAPscript or SAP SmartForms using flexible, easy-to-use technologies such as the RightFax wizard-based integration tool to decrease implementation time and expense.
- **Reliability and disaster recovery** Take advantage of comprehensive backup, fault tolerance and archiving capabilities for reliable disaster recovery.
- **Certified, proven integrations** Employ a proven leader in fax server and electronic document delivery software for SAP

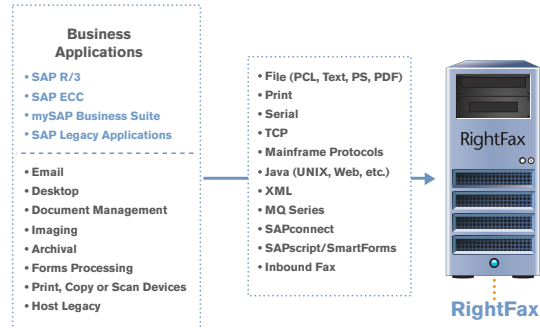

SENDING A PURCHASE ORDER FROM SAP WITH RIGHTFAX

HOW IT WORKS

RightFax utilizes a four-phase workflow process that captures information from SAP, renders it into an electronic image, distributes the information via fax, email or the Internet and creates customized reporting.

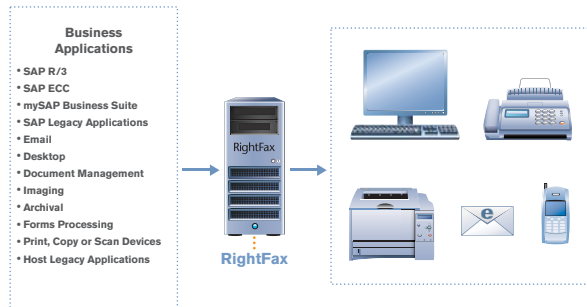

PHASE 1: Data Capture RightFax receives input from SAP in a variety of formats.

PHASE 2: Information Assembly Using one of the various information assembly methods available, information from SAP is rendered into an electronic image.

PHASE 3: Information Distribution Information is delivered to the recipient. A variety of methods can be used to deliver documents depending on the RightFax package, including fax, email and delivery over the Internet.

PHASE 4: Reporting, Tracking and Notification Notifications of delivery for reporting and audit trail are sent to the host or end-user. Different levels of notification are available depending on the RightFax package.

RIGHTFAX SOLUTIONS FOR SAP

RightFax provides the most comprehensive fax server and electronic document delivery solutions available to streamline workflow, automate business processes and reduce overall information delivery costs. No matter what version of SAP your organization is running—whether you require simple faxing from one SAP application, or a complete fax server and electronic document delivery system from multiple SAP applications for your enterprise—Captaris has a RightFax solution to fit your unique document delivery needs.

CAPTARIS AND SAP PARTNERSHIP

As the industry leader and recognized innovator, Captaris has been providing proven, certified and reliable production fax and electronic document delivery capabilities for SAP users since 1994 and is an SAP Software Partner. The extensive and long-standing collaboration, testing and integration between the two companies ensure that RightFax implementations are sound investments today and tomorrow.

ABOUT RIGHTFAX

RightFax is the world leader in fax server software, with a market share five times larger than its nearest North American competitor and 2.5 times larger than its nearest global competitor.¹ It delivers the most reliable and robust fax software solutions to integrate and automate the flow of a full range of fax, paper and electronic documents and data, enabling enterprises to achieve significant cost reductions. By using a RightFax Server, companies can securely and efficiently deliver business information from virtually any application via fax, email, print devices or over the Internet. RightFax is also the leader in enabling network fax solutions for MFPs.

Certified integrations and long-standing partnerships with industry leading software and hardware vendors such as SAP, Canon, FileNet, Hewlett-Packard, IBM, Microsoft, Oracle, Sharp and Xerox make RightFax the solution of choice for fax server and electronic document delivery with companies of all sizes across the globe.
